

WHAT WE DO

"This dynamic presentation takes students into the world of exploration, creativity, and intuitiveness as feelings and emotions are shared. The presentation with puppets enhances students motor skills, cognitive development, and language skills. Students are more open to learning when they are having fun and puppets offers that medium."

Linda G.
BA, MS, Ph.D.
Educator, Professor, Author

WE CARE ABOUT YOUR STUDENTS

We are dedicated to creating a safe and educational space for students to explore puppetry and ventriloquism. At its core, Puppet Day was created as a way to spark a student's natural curiosity for learning and the arts. From Sesame Street to The Muppets, students have been exposed to puppets all of their lives. We're just proudly putting faces to the characters they already love, with a simple message... "You Can Do It Too!"

PUPPET DAY!

AN INTERACTIVE EDUCATIONAL EXPERIENCE

BENEFITS FOR STUDENTS

- *Verbal Interaction* with puppets encourages language development by creating an open dialogue and a safe space for students to express themselves. Shy students benefit by letting the puppets be their voice thus increasing communication.
- *Social Development and Fine Motor Skills* are enhanced through the medium of puppetry. Playing with puppets improves dexterity and hand-eye coordination.
- *Self Confidence and Creativity* are developed through the act of handling and interacting with puppets as students retell and share their experiences and adventures. Role playing allows students to explore new personalities, ideas, and to develop their imagination.

AUDITORIUM PRESENTATIONS

Our exciting 45 minute auditorium presentations enhance student creativity, social development, and self confidence.

By blending both the educational aspects of ventriloquism and puppeteering with the fun components of live performance and audience interaction and participation, we are able to offer a truly one of a kind experience!

AGE RANGES

Pre-K through 6th-Grade!

- Pre-K through 1st grade shows are puppet story time with a presentation structure.
- 2nd through 4th Grade shows are interactive with some audience participation.
- 5th and 6th Grade shows delve more into the technical, with heavy audience participation.

TESTIMONIALS

- "The students excitement was palpable. We also received great responses from our parents as well." *Dr. T Watson, Principal*
- "I promise you... the feedback has been non stop! The experience was truly magical. Thirty two days before I retire... Puppet Day was the absolute best!" *Catherine Williams, Teacher*
- "Will definitely be asking administration to bring them back. I've never seen anything like it. My quietest students were engaged like I've never seen them before." *Shonda, Special Ed Teacher*
- "Absolutely magnificent! We had them present for our third, fourth and fifth graders. The students were totally engaged throughout the presentation. We can't wait to bring them back to the UAE." *Yohanna Al Hassan, Managing School Director*
